

LOCAL SPORTS DESTINATION ENHANCMENT GRANT APPLICATION

Addendum 1 through September 17, 2019

Q: Our mission is not to attract audience members, so I understand that funds will be based on event revenues, either 30%, 25%, or a maximum of \$50,000, not that percentage based on our last 990.

A: You are correct, your funding request should be based on the appropriate percentage of your event budget.

Q: We will run two events in 2020. One in January and one in July, as I understand, we can apply for this grant for both events with two separate applications, one for each event. Is that correct?

A: Even though you are hosting two events, it is preferred that you apply with one application incorporating details of both events.

Q: Government and educational organizations are not eligible to apply for local sports program grants. I assume this would eliminate private or public schools and anyone affiliated with UF.

A: Schools, including the University of Florida, are not eligible for funding from this grant.
